Portable Power Station for CPAP

Perfectly Compatible with 90% CPAPs

X30 | 297Wh

X60 | 614Wh

EN-V1.0

BLUETTI X30 Your Ultimate CPAP Power Solution

With an impressive capacity of 297Wh, the BLUETTI X30 portable power bank delivers constant power for your CPAP, allowing a comfortable sleep during camping in the wild or unexpected outages at home.

It also comes with multiple convenient ports to keep your small devices charged all at once.

BLUETTI X60 Power That Keeps You Going, Night After Night

When you need constant power to get you through extended nights—whether it's during a camping trip, power outage, or emergency—look no further than the BLUETTI X60. With a robust 614Wh capacity, this powerhouse ensures your CPAP and other devices stay powered up for the long haul.

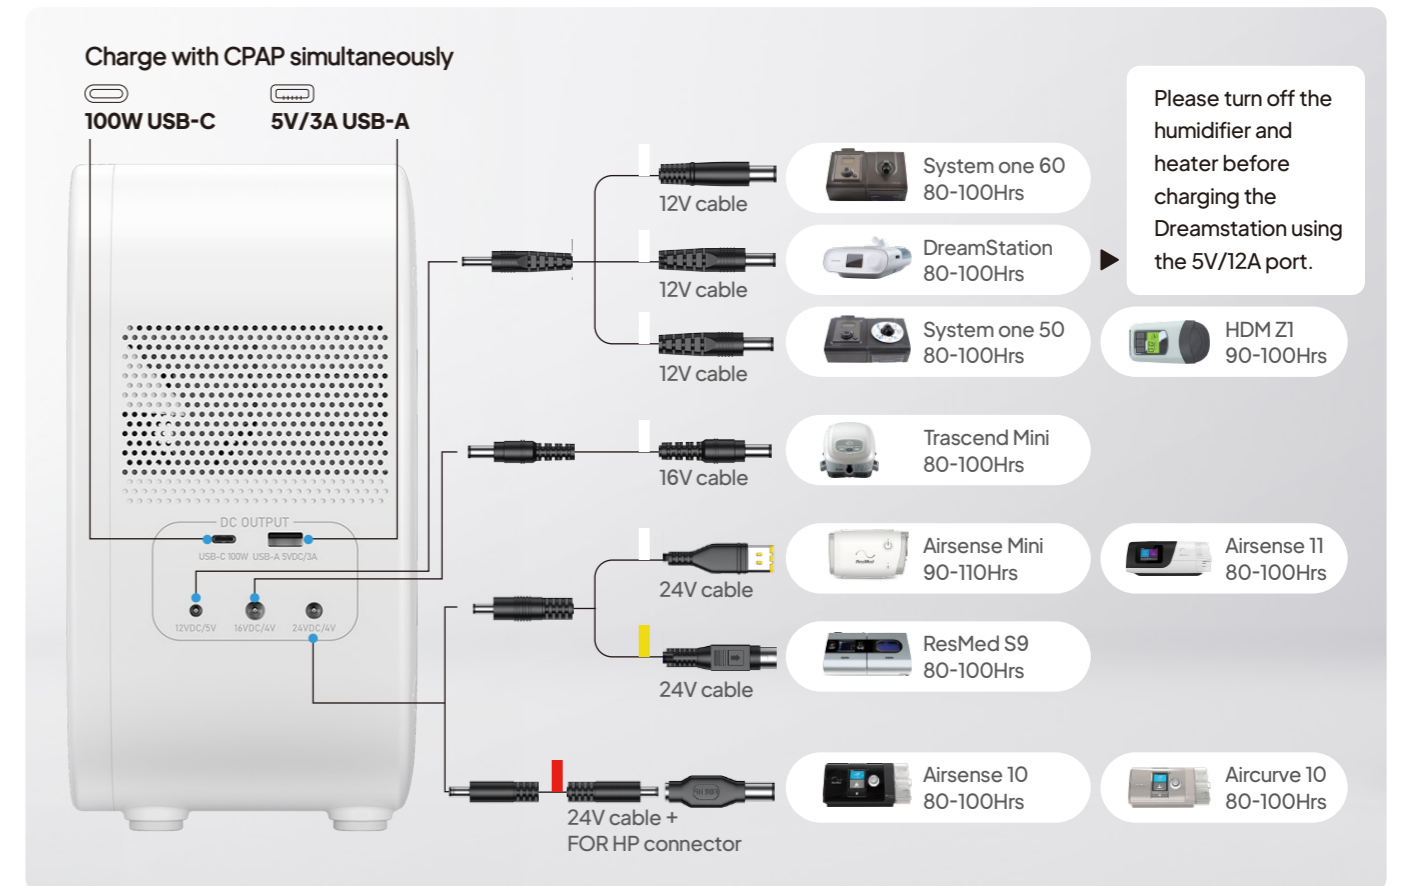

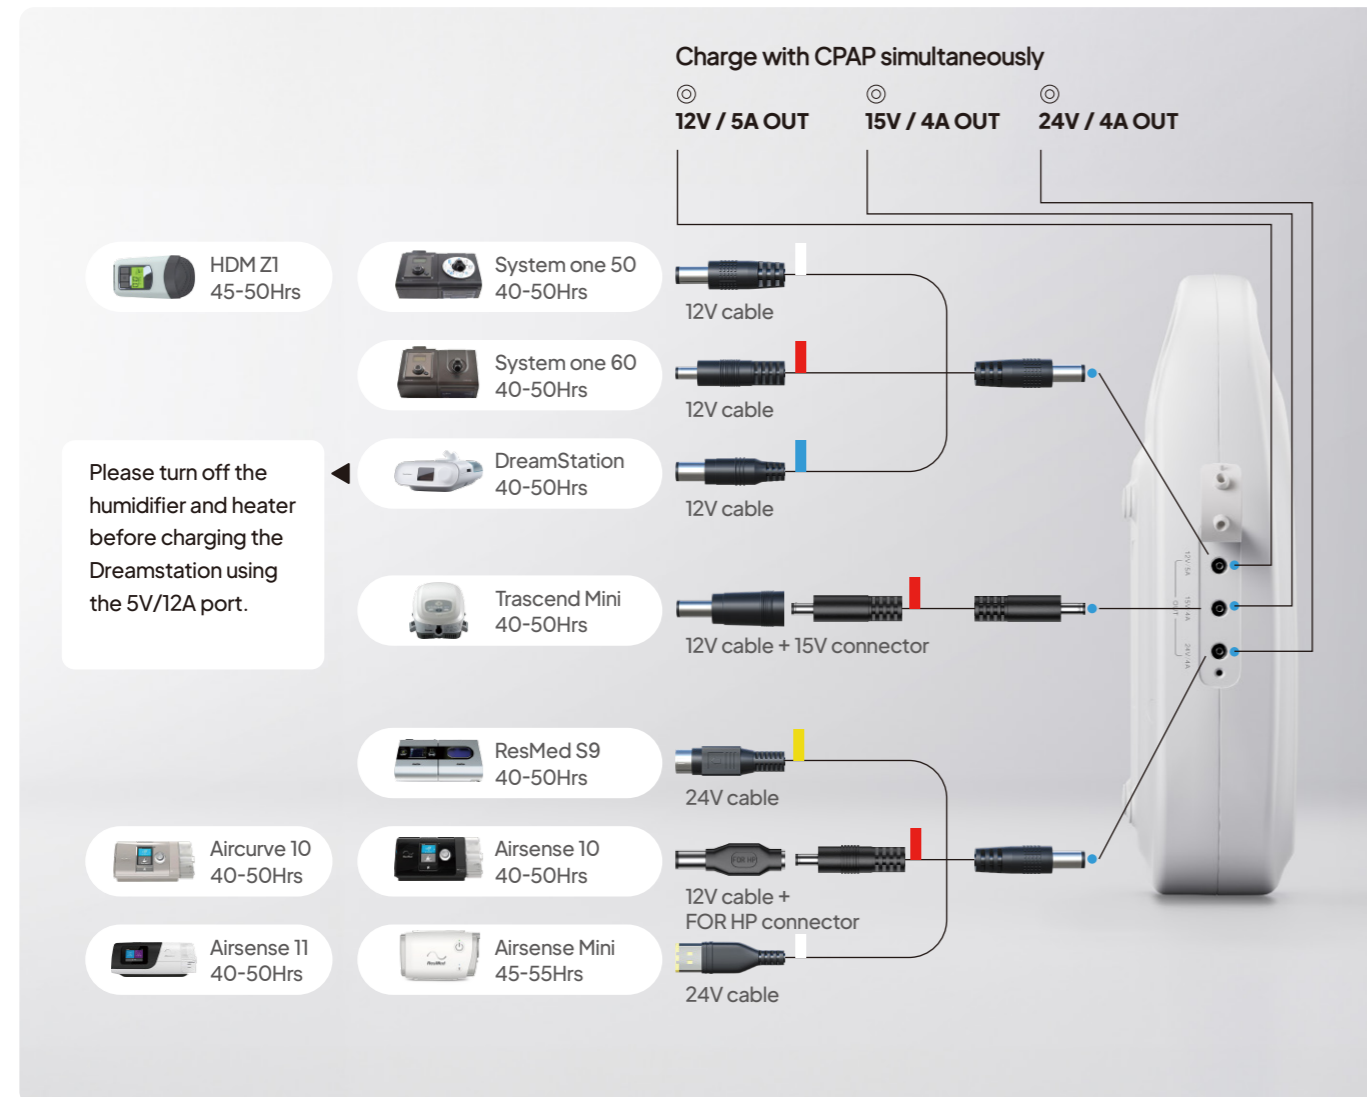

Charge Your CPAP Effortlessly and Efficiently

Sleep soundly, knowing that the X30 has your back. Whether you're unplugged in nature or facing a sudden blackout, the X30 provides reliable, long-lasting power to keep your CPAP working throughout the night. No more worrying about battery life when you need it most.

Uninterrupted Sleep, Powered by the X60

The X60 supports 90% of CPAP and BiPAP devices (like AirSense 10/11, System One 50/60, and Transcend Mini), offering up to 10-14 nights of consistent, comfortable sleep. A reliable power solution to keep your devices running smoothly, whenever that matters.

Note:

1. Be sure to use the right cable with the correct voltage to power your CPAP.
2. Low battery alert will be activated when it's down to just 5% battery.
3. Power off the heater / humidifier for extended runtime.
4. Runtime estimates are based on the heater/humidifier being off and for reference ONLY.
